

## Topseal Environmental Statement

This environmental statement covers every aspect of Topseal's operations including, manufacture, administration, storage, deliveries, installation and all policies, plans and practices in our business.

Our current commitments under this environmental statement are to:

- Monitor and improve all of our consumption of resources at every stage of manufacture and processing.
- Monitor and improve waste management generated through every aspect of our business.
- Consider environmental issues in our business plan and company policies.
- Take the appropriate actions to reduce the carbon footprint of our business.
- Operate the business in an effective and efficient way to improve resource usage, environmental impact and prevent pollution.
- Strive to use and incorporate more recyclable materials into Topseal's operations in place of existing materials.
- Annually monitor and evaluate our policy, related internal objectives and targets and our overall environmental impact with a view to improving every year.
- Abide by the appropriate environmental regulations and legislative requirements.
- Communicate this statement through to all aspects of our business and installer network and encourage compliance.
