

BECOME A TOPSEAL APPROVED INSTALLER

You can become an approved installer of the BBA certified range of Topseal GRP flat roofing systems including Topseal Direct Lay and Topseal PU systems. The Topseal training programme includes theory and practical elements and will allow you to strengthen the range of services your company offer.

- Intense one day training course at our head office in Harrogate
- Site visits and inspections
- Sales and marketing support
- Sales leads provided
- Unique approved installer verification number
- Technical and specification support
- One day in depth mobile training course also available at your premises (restrictions apply)
